
Antwaun Johnson

I am a web developer specializing in C# and .NET. My skills also include JavaScript, HTML, and CSS. With my strong passion for coding, I have the skills and knowledge to create dynamic, innovative, and visually pleasing web applications. My expertise in ASP.NET Core MVC and object-oriented programming allows me to understand and solve business-critical problems quickly. I am proficient in all aspects of web development, familiarizing myself with best practices and software design principles. I am highly organized and fast-paced and continuously strive to improve my skills and learn new technologies.

 Mesa, AZ, USA <https://antwauncodes.com>  

Skills
